EDUCATION

University of Maryland: College Park
Bachelor's Degree in Computer Science

Sept 2020 - Aug 2023

RELEVANT EXPERIENCE

Amazon

Jan 2025 - Present

Quality Services Associate - Arlington, VA

- Created and executed test cases in TestRail for router features such as Wi-Fi connectivity, DHCP IP assignment, LTE connectivity/failover, and basic firewall rules, ensuring full coverage of functional requirements.
- Logged and tracked bugs in Jira with clear steps to reproduce, attaching screenshots and log files to support developer debugging.
- Wrote Python automation scripts to verify router login via SSH and perform simple ping/throughput tests during both Ethernet and LTE connections, reducing repetitive manual checks during regression cycles.

Scale AI / Outlier

Feb 2024 - June 2024

Software Developer AI Trainer - Remote

- Created comprehensive prompts introducing software problems to AI models. Designed and tested 40 prompts weekly to improve model responses in Python, Java, and JavaScript.
 - Reviewed and evaluated AI outputs based on provided prompts and code examples, identifying and correcting 500+ code correctness, accuracy, and relevance issues in the generated responses.
 - Reviewed and validated peers' AI code evaluations for accuracy and consistency while collaborating to refine my own assessments, enhancing overall evaluation performance significantly.
-

CERTIFICATIONS

- *AWS Certified Developer - Associate (DVA-C02)*
-

PROJECTS | [View All](#)

[Manga Website](#) | React, NodeJS, Express, MongoDB, AWS(S3 - CF), Google GCP

[Github](#)

- Developed a full stack web application allowing users to read manga from my own manga collection using React for the frontend, NodeJS and Express for the backend, and MongoDB and AWS S3 for quick and efficient data storage.

Custom Compiler | Racket, C

[Github](#)

- Developed a simple compiler in Racket as the final project for my Design and Implementation of Programming Languages course, implementing parsing, semantic checking, and x86 assembly code generation.
-

SKILLS

- Programming Languages: Python - Java - C - C++ - JavaScript - Swift - HTML - CSS.
- Frameworks & Libraries: Django - Express - Node JS - React - Amazon AWS - MongoDB - SwiftUI
- Tools & Technologies: AWS - Slack - Git - Docker - GCP- VS Code
